

## Garston Industrial site Community space not dirty industry!

Peloton's plan for the former **Garston industrial site on Blackburne Street** is on hold. Liverpool City Council will visit the area in the next few weeks **before making a decision.**

This is a small victory for our campaign to stop Peloton using this site for industrial storage. But we need to keep telling the Council and **polluting companies they are not welcome here!**

We want to see this land developed for the benefit of our community and **not as part of the re-industrilisation of Garston.**

**You can still object to the Peloton plan.** Contact the Council at [planning@liverpool.gov.uk](mailto:planning@liverpool.gov.uk) quoting this reference: **22f/2806.**

To find out more text us at **07907 462070**. Leave your name and address and we will contact you with details of the site visit. Or you can look at the **L19 Action Group's** Facebook site.

## Community Homes in Garston Not Storage Zones

The Peloton Plan could mean an extra **1650 vehicles a day** going past your homes. This, added to the increased traffic to and from the expanded Veolia site, will make an already polluted area much worse.

**And it's not just fumes.** Particulate matter from tyres are a major source of disease, especially in the growing lungs of children.

**AIR POLLUTION**  
**CLEAN IT UP!**
